Corsini mill

Thus wrote Augusto Monti del Mulino Corsini:

"Just outside the town, the river. On the river, the mill. Spring. Sky, air, fields cleansed and warmed by that little wind that comes from the mountains and blows from the sea. Peace, happiness everywhere. At the mill, there is no hard work it is there. Everything inside is silent. The threshing floor is deserted. Party. Rest" ... and again: "Fresh stream of water. Noise of wheels and millstones. in the conchetta. Coming and going in the courtyard of carts with oxen and bundled donkeys. Filling your hands with splinters to hammer the millstones. Learn how to make customers happy and pissed off. A new world, which Papa would never have imagined so beautiful" .

It is a structure of an area, divided over 3 floors of almost 1000 square meters and surrounded by about 11,000 square meters of overflow area and arable land.

The structure has particular architectural details of great historical-cultural value for the area.

Attention, it is not possible to change the destination to residential house nor increase the anthropogenic load and, the bathroom inserted in the details, is not actually present, this is for technical reasons only.
