

Farmhouse / Estate for Sale to Roccaverano

350 square meters | Bathrooms: 1 | Bedrooms: 3 | Rooms: 8

In the beautiful setting of the Asti Langhe, in the heart of the Robiola hills, we propose this beautiful property in Roccaverano composed of two buildings in the context of a characteristic hamlet.

-- The first building is a beautiful rustic building stacked as a warehouse (former stable with hayloft above). The structure is in Langa stone, on 2 floors and measures approximately 120 square metres per floor.

The structure is in good order and with concrete slabs and a height of well over 2 m 70 for possible future conversion into living quarters. The barn has wonderful arches that if taken up could give the structure great charm and authenticity. Perfect roof.

-- The living part, below the warehouse building, consists of ground floor with courtyard, kitchen, living room and staircase to the upper floor. Still on the ground floor, going out into the courtyard, there is a storage room and a further room with a double cellar with water collection tank.

On the upper floor, on the other hand, we have three rooms, one of which is a pass-through room that could be converted into a corridor + bathroom in order to have a toilet inside the house as it is currently located in a small building in the courtyard.

Also in this building as in the previous one the roof is perfect, redone ten years ago. The installations date back to the 1960s. Wooden slabs, communal water, electricity, sewer which drains into the pit which in turn drains into the communal sewer.
